

20 April 2007

Dear Technology Partner,

What will you be doing on **September 20th**? Please reserve it right now to join us!

So far this year RDI has announced to you our new web site, our new telephone system, our new focus on clients through our client services department, and we have talked a lot about the tremendous success of our new innovative ASP solutions. Now, we want to once again invite you to the **Annual Executive Advisory Council (EAC) Meeting** so that you can tell us what other new innovations you may need or want.

Last year the Council talked about partnership; it focused on how electronic document management was a part of making your organization a success. Building on last year's topics, this year's theme will be The Strategy of Innovation.

As always, the meeting will consist in large part of valuable discussion time. Do you have an edoc strategy that fulfills your charter's promise to serve, that improves your enterprise's financial and competitive position, and that gives you more control of your electronic data? We will discuss technology advances in the industry and innovations made by RDI. We will also discover together what additional features and tools you need to meet your strategic goals.

We will remind you again as the time comes closer but please reserve the 20th of September now and join us for the all day event. RDI will provide breakfast and refreshments throughout the day. We intend to start at 9 a.m. and go until 4:30 p.m. with breaks for lunch and as needed. Location will be announced in our next reminder.

We look forward to seeing you there.

Sincerely,
RDI Staff
